

# heywell®

As a (certified) women-owned business, and because we were often the only women around the conference table, we also set out to be as inclusive as possible and make something on our terms. We give 1% of sales to non-profits that advocate for inclusion.

## Ingredients made for modern life.

heywell is made with high quality, plant-based ingredients including adaptogens, antioxidants and organic caffeine from green coffee beans (in our energy collection). Our drinks are made with organic ingredients, are non-GMO, gluten free, dairy free and vegan. The adaptogens we use are GRAS certified.
