FORMANS USA

Formans USA represents the renowned British smokery, H. Forman & Son. The integrity and craftsmanship put into each and every product is incomparable. We deliver the century old culinary traditions that highlight the quality and respect put into all hand sliced cured and smoked Scottish salmon.

"We use a smoke wheel, we use friction smoke. Everybody else uses fire or burning of wood chips or sawdust. We actually use oak wood logs and filter it down against a spinning wheel,"-Ethan Forman, the 4th generation to work for the family business.
